7156 - 7257

NOTE BOOK

Name _____

Vol. 557

$5.00 Reward
for return to:
Arthur Cronquist
New York Botanical Garden
Bronx Park
New York 58, N.Y.

7156 - June 13, 1953 - Locally abundant roadside weed in gravelly basaltic area 8 miles northeast of Shaniko, Sherman Co. Oregon. Twp. 5 S., R. 17 E., About S. 33. Elev. about 3000'. Flowers light salmon-colored. Collomia grandiflora Dougl. Collomia grandiflora - (12)

7157 - June 13, 1953 - Dry, very sandy slopes just south of Biggs, Sherman Co. Oregon. Twp. 2 N., R. 16 E. Columbia.

Phlox longifolia Nutt.

Phlox (3)

7158 - June 14, 1953 - Dry, sandy flats among scattered junipers, along the Deschutes River, 4 miles west of Redmond, Deschutes Co., Oregon. Twp 15 S., R. 12 E., S. 14. Elev. 2900'. Corolla white

Cryptantha circumscissa (H. & A.) Johnst. var. circumscissa - Pectocarya (12)

7159 - June 14, 1953 - Dry, sandy flats among scattered junipers, along the Deschutes River, 4 miles west of Redmond, Deschutes Co., Oregon. Twp 15 S. R. 12 E. S. 14. Elev. 2900'. Plants prostrate, dichotomously branched; corolla light pink-lavender with a slight emplitic odor.

Nama densum Lemmon

Gilia? (31)

7160 June 15, 1953. Same place as 7158. Corolla pale blue

Piper

Phacelia glandulifera ~~(Torr.)~~ ~~J.T. Howell~~

det. J.T. Howell

Nemophila (20)

7161 - June 15, 1953 - Same place as 7158. Plants variable in degree of cutting of the lower leaves. Corolla blue. Lavender.

Gilia sinuata Dougl.

V. 551

Gilia (35) - H. blue lavender

7162 - June 15, 1953 - Basaltic ledges near the Deschutes River, 4 miles west of Redmond, Deschutes Co., Oregon. Twp. 15 S., R. 12 E. S. 14. Elev. 2900'. Perianth yellow.

Eriogonum proliferum T. & G.

Eriogonum (6)

7163 - June 15, 1953 - Open ponderosa pine forest, 1½ miles west of Sisters, Deschutes Co., Oregon. Twp. 15 S., R. 10 E. S. 6 Elev. 3230'. Corolla magenta, marked with yellow and deeper red in the throat.

Mimulus nanus H. & A.

Mimulus nanus (14)

Mimulus nanus (4)

7164 - June 19, 1953 - Same place as 7163. Rays yellow, mostly 4 or 5.

Madia minima (Gray) Keck

Madia minima (35)

7165 - June 15, 1953 - Streamside 5 miles west of Sisters, Deschutes Co., Oregon. Twp. 14S., R. 9E. S 35 Elev. 3450 Shrub about 5 m. high. Twigs very glaucous, leaves somewhat glaucous beneath

Salix Lemmoni Babb.

Salix - 5 m. (35)

7166 - June 15, 1953
Open juniper forest 12 miles west of Redmond, Deschutes Co, Oregon.
Twp - 15S., R. 11E., S. 14. Elev. 3000'

Lomatium nevadense (Wats.) C. & R.

Lomatium (2)

7167 - June 15, 1953
Open ground among scattered junipers 12 miles west of Redmond, Deschutes Co., Oregon
Twp. 15 S., R. 11 E., S. 14.
Elev. 3000'

Erigeron linearis (Hook.) Piper

Erigeron linearis (7)

7168 June 15, 1933 - Rocky (basaltic) ground among scattered junipers 12 miles west of Redmond, Deschutes Co., Oregon. Twp. 15 S., R. 11 E., S. 14. Elev. 3000'
Much branched shrub about 2 dm. tall; perianth yellow.
Eriogonum Spinescens Douglas.

Eriogonum (b)

7169. June 15, 1933 - Rocky (basaltic) ground among scattered junipers 12 miles west of Redmond, Deschutes Co., Oregon. Twp. 15 S., R. 11 E. S. 14 Elev. 3000'
Stems prostrate nearly 2 dm.
Flowers pale creamy
Pedicels slightly sulcate beneath
Eriogonus misellus Wats.
det. R. C. Barneby
Tetragonal

7170 [illegible] 5 [illegible]
On sandy ground along
the Deschutes River about
4 miles west of Redmond,
Deschutes Co, Oregon.
Twp. 15 S. R. 12 E. Sec.
Elev. 2850'. Plants in
small tufts.
Stipa thurberiana Piper

Stipa (1)

7171 - June 15, 1923 - Sandy
soil on basaltic substratum
along the Deschutes River
4 miles west of Redmond,
Deschutes Co, Oregon.
Twp. 15 S. R. 12 E. Sec.
Elev. 2850'. Rays and disc yellow.
Senecio canus Hook.

Senecio (1) 2567

7172 - June 16, 1953 - In partial shade of basaltic boulders along cliffs near the Deschutes River, 4 miles west of Redmond, Deschutes Co., Oregon. Twp. 15 S., R. 12 E., S. 14. Elev. 2900'. Stems several from a taproot and branched caudex, coarse but weak, reclining-ascending, corolla lavender. Phacelia ramosissima Dougl. DET. J. T. HOWELL

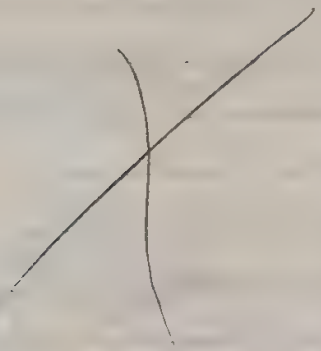
phacelia | 8 incl. 2 sheet 1, 2 sheet 2, 1 sheet 3

7173 June 16, 1953 - Rocky (basaltic) mesa overlooking Prineville from the southwest, Crook Co., Oregon. Twp. 15 S., R. 16 E. S. 6. Elev. 3000'

Stipa thurberiana Piper

Copied 13

1.13 . 16. 5



June 16, 1953. Edge
of [illegible] meadow just above
[illegible], Crook Co
Oregon, T 15 S., R 16 E S. 6
Alt. 3000.

Senecio canus Hook.

Senecio canus (25)

Penicillus tenuis (25)

7175 - June 16, 1953 - Basaltic south slopes just southwest of Prineville Crook Co. Oregon. Twp 15 S R. 16 E. S. 6. Elev. 3000'. Stems several from a taproot, ascending. F. brown vermilion.

Sphaeralcea munroana (Doug.) Spach var. munroana.

Sphaeralcea munroana (11)

7176 - June 16, 1953. Shrub 1-2 ft. tall at south edge of mesa just southwest of Prineville, Crook Co, Oregon. Twp. 15 S, R 16 E S. 6. Elev. 3000'.

Ribes velutinum Greene

(6)

[illegible] June 16 - Beside the South Platte [illegible] Southwest of Fairplay, Colorado 9 to 6 [illegible] Temp. 155 F 165 S. S. 6. Elev. 3000 ft. Perianth yellow.

Eriogonum proliferum T. & G.

[illegible] (14)

[illegible] June [illegible] - Same place as 7.17. Stem about 2 - 3 dm. tall. Perianth yellow.

Eriogonum sphaerocephalum Dougl.

[illegible] (7)

7179- June 6, 1943 - Same place as 7177. Stems numerous from a stout taproot and branched, decumbent below, strongly ascending above. Flowers creamy-white

Astragalus curvicarpus (Shelb.) Macbr. var. brachycodon (Barneby) Barneby
det. R. C. Barneby (23)
Astragalus

7180 June 6, 1943 - Open hillsides among scattered pines about 17 miles southwest of Prineville, Crook Co., Oregon. T. 16 S., R. 17 E., S. 13, Elev. 3100'. Corollas blue-purple.

P. strictum whitedii Piper
subsp. dayanus (Howell) keck
det. D. D. K.

16

7181 - June 16 19[illegible]
Same plant as 7181. Corolla blue, median lobe nearly white palate.

Penstemon speciosus Dougl.

det. D.D. keck ✓

P. [illegible] (6)
[illegible] June 16, 1923 - Gravelly soil on open hillsides among scattered junipers about 17 mi. SW of Prineville, ~~Crook~~ Co., Ore. Twp. 16 S, R 17 E., S 30. Elev. 3100'. Corollas very pale in effect, the lower lip creamy, the upper dull pale purplish.
Scutellaria nana Gray -
Scutellaria 27

Lewisia

7123 June 16, 1923 - Barren rocky slopes near the Crooked River, about 21 miles southeast of Prineville, Crook Co. Oregon. Twp. 16 S., R. 18 E., S. 22. Elev. 3300'. Principal branches mostly about 8, 0 ups to 13 on the terminal head. Crepis occidentalis Nutt. var occidentalis. Nat. thickened peduncles in fl. (15)

7123 June 16, 1923 - same place as 7123. Large purplish or occasionally pure white.

Townsendia florifer (Hook.) Gray

var. florifer

7185 [illegible] S. Baker.
Gumbo clay slopes adjacent with the John Day formation overlooking the Crooked River half way between Prineville and Paulina, Crook Co. Oregon Twp. 16S. R. 19E. W. 1/2 of S. 27 Elev. 3400'.
Flowers golden yellow.
Cleome platycarpa Torr. ✓
Cleome platycarpa (7)

7186 June 16 [illegible] - On the less extreme habitats associated with the gumbo clay deposits of [illegible] from the John Day formation, overlooking the Crooked River - (rest as in 7185). Bracts scarlet

Castilleja Chromosa A. Nels. & Pays. Bot. Gaz. Marine Lakes ✓

Castilleja (10)

Saxifraga (10)

7182 - June 16, 1953 - Same place as 7185. Flowers white, turning pink in age.

Oenothera caespitosa Nutt.
var. montana (Nutt.) Durand

(8)

7183 - June 16, 1953 - Same place as 7185. Corolla yellow

Lomatium vaginatum C. & R.

Lomatium

7/8 [illegible] c [illegible], 1953 -
Open sagebrush-juniper slopes overlooking the Crooked River, half way between Prineville and Paulina, Crook Co., Oregon. Twp. 16 S., R. 19 E., about S 27, Elev. 3400'.
Astragalus newberryi Gray
det. R. C. Barneby
(4)
Astragalus

7/8 [illegible] June [illegible], 1953 - Grassy meadows near the Crooked River, half way between Prineville and Paulina, Crook Co., Oregon, Twp 16 S, R. 19 E. about S. 27, Elev. 3400'. Corallorhiza yellow,

Hymenopappus filifolius Hook.
var. filifolius

V 1

Hymenopappus (6)

Hymenopappus (G.)

7191 – June 16, 1953.
Sagebrush - juniper slopes near the Crooked River - Eleanor Sampson 7191, Corollas dull light purple-pink

Orobanche fasciculata Nutt.

Orobanche (?) fasciculata

7192 – June 16, 1953
Basaltic mesa just southwest of Prineville, Crook Co., Oregon, Twp. 15 S., R. 16 E. S. 6. Elev. 3000'.

Sitanion hystrix (Nutt.) J. G. Smith

Sitanion (?)

7193 - June 16, 1933
Basalt ridge west
southwest of Prineville,
Crook Co., Oregon. Twp. 15S.,
R. 16 E. S. 6. Elev. 3500'.

Agropyron spicatum (Pursh)
Scribn. & Smith

Agropyron spicatum ✓
7194 - June 16, 1933. Same
place as 7193. Rays yellow

Erigeron linearis (Hook.) Piper
✓

Erigeron linearis (6)

7195 - June 17, 1953 - Open gravelly flats at lower edge of ponderosa pine belt, 13 miles northeast of Paulina, near Sugar Creek, Grant Co., Oregon. T. 13 S., R. 24 E. S. 35. Elev. 4000'. Perianth pinkish-tinged.

Polygonum austinae Greene

Polygonum, (35) ✓

7196 - June 17, 1953 Same place as 7195. Corolla magenta, marked with yellow and deeper red in the throat.

Mimulus nanus H. & A. ✓

Mimulus nanus ✓

7197 June 18 1953
Same as no. 196. Flowers yellow; the palate red-spotted.

Mimulus suksdorfii Gray

35

7198. June 18, 1953. Same, as no. 196. Perianth pink.

Polygonum parryi Greene

35

Polygonum (35)

7199 - June 16, 1953. Same plant as 7196. Kaupyldan, mostly 4-5, sometimes seven.

Madia minima (Gray) Keck

Madia (15)

7200 - June 18, 1953 Same plant as 7196. Perlandh meadow

Polygonum Kellogg Greene

Polygonum 35

72[illegible] - June 10, [illegible]3 - Open sagebrush juniper flats at the lower edge of the ponderosa pine zone near Sugar Creek, 13 miles northeast of Paulina, Crook Co., Oregon. Twp. 15 S., R. 24 E., S. 35. Elev. 4000'. Knight [illegible].

Castilleja sp. att. longispica N. Mex.
Supt. det. Marion Ownbey

Castilleja (5)

72[illegible] - June 18, 1935 Open, rocky flats at the lower edge of the ponderosa pine zone, near Sugar Creek, 13 miles northeast of Paulina, Crook Co, Oregon. Twp. 15 S., R. 24 E., S. 35. Elev. 4000'. Camilla Knight purple

Clarkia pulchella Pursh

Clarkia (1)

Carlina D

7203 - June 18, 1953 - Moist meadow land along Sugar Creek about 13 miles northeast of Paulina, Crook Co. Oregon, Twp. 15 S., R. 24 E., S. 35. Elev. 4000'. Achenes flattened.

Ranunculus occidentalis Nutt. var. dissectus Henderson ✓

Ranunculus 39) [illegible]

7204 - June 18, 1953 - Same locality as 7205. Petals small.

Ranunculus uncinatus D. Don var. uncinatus ✓

Ranunculus [illegible]

7205 June 19, 19[illegible] - Open, rocky, [illegible] 13 miles north of Pendleton, Umatilla, Oregon, [illegible] S. 35. Elev. 4150 [illegible] 5-6 mm long, pubescent within at the level of attachment of the filaments. Filaments glabrous. Ovules many (2 per locule) Diagnosing septentrionalis Wherry? P. nanthus (3)

7206 - June 19[illegible]3 - Same place as 7205. Plants shrubby at the base; flowers purple

Penstemon gairdneri Hook.

det. D. D. Keck

Penstemon. (2)

Penstemon (2)

7207 - June 19, 1953 Open rocky sagebrush ridge, about 18 miles northeast of Paulina, Ore. Ore., Oregon T. 14 S., R. 21 E. S. 34, Elev. 4600'. Root simple or 2-headed. Rays yellow.

Balsamorhiza serrata Nels. & Macbr. ✓

Balsamorhiza serrata (6)

7205 June 19, 1953 - Same place as 7207. Plants in total involucral bracts commonly about 13.

Crepis modocensis Greene ✓
subsp. modocensis

7207 June 19, 1953 - Same
plot as 7207. Taprant
Poorly developed, quickly
deliquescent. Heads yellow

Haplopappus canus Gray
var. canus

Haplopappus canus (3)

7210 - June 19, 1953 - Same
plot as 7207. Heads yellow.

Microseris nutans (Geyer)
Schultz-Bip.

Microseris nutans (3)

Arnica sororia (2)

7211 - June 19 1953 - Sagebrush ridges in ponderosa pine area, south slopes of Buckhorn Mts., 15 miles northeast of Paulina, Crook Co., Oregon. Twp. 15S, R 34E. S. 16. Elev 4400' Rays orange.

Arnica sororia Greene ✓✓

Castilleja (3)

7212 - June, 9, 1953 - Sagebrush ridges in ponderosa pine area, south slopes of Buckhorn Mts., 15 miles northeast of Paulina, Crook Co., Oregon. Twp 15S R34E, S. 9 or 16. Elev. 4500'. Bracts scarlet, or nearly salmon

Castilleja affinis var. ✓
affinis det. Marion Ownbey

(3)

213 – June 19, 1953. Same
[illegible] 7212. Flowers yellow

Navarretia heterodoxa (Gray) Greene

(11) Navarretia 6452 – Taylorville [illegible]
7212 June 19, 1953 – Moist
meadows at the edge of the [illegible]
ponderosa pine forest, about 15 miles
South slopes of the Ochoco Mts.
northeast of Paulina, Crook
Co., Oregon. T 14 S., R 24 E.,
S. 9. Elev. 6000'. Perianth
white with yellow glands.

Zygadenus venenosus Wats.

Zygadenus [illegible], [illegible] venenosus (30)

(35)

7215 June 19, 1953 Gravelly roadside in ponderosa pine area about 15 miles northeast of Klamath Falls, Klamath Co., Oregon. Twp. 35, R. 7 E., S. 9. Elev. 4600 Corollas pale lavender. Plants with few erect, nearly prostrate branches

Nemophila parviflora Dougl. var. *austinae* (Eastw.) Brand

Nemophila (18)

7215 - June 19, 1953. Same place as 7215 - Plants much prostrate branches corolla pale lavender.

Nemophila pedunculata Dougl.

7217. June 19, 1953
Lamb plant, 7216. Corolla
pale lavender. Branches
ascend-ascending, not

Nemophila breviflora Gray

2) Ellisia

7218 June 19, 1953 - In shade
of junipers and ponderosa pine
on open ridges, south slope of
the Cabinets, about 15
miles northeast of Paulina,
Crook Co., Oregon. Twp 15,
R. 21 E. S. 16. Elev. 4600. Corolla
light blue, throat partly yellow-
ish.

Hackelia cusickii (Piper)
Brand

dupl. det. I. M. Johnston

Hackelia 60.2 (11)

7219 - June 19, 1953 - Gravelly open places in ponderosa pine area, summit of the Colorado Mts., 19 miles northeast of Paulina, Wheeler Co., Oregon. Twp 14 S., R. 24 E., S. 29. Elev. 5600'. Corolla nearly white, with violet lines and dots.

Hesperochiron pumilus ~~Greene~~ (Dougl.) Porter (15)

7220 June 19, 1953. Same place as 7219. Petals 5, pink-lined on nearly white background

Lewisia triphylla (S. Wats.) Robins.

Lewisia (5)

7219 - June 19, 1953. Same place as 7219. Perianth lavender-pink, rarely white.

Sisyrinchium douglasii Dietr.

Sisyrinchium (4)

7220 - June 19, 1953. Same place as 7219. Stems usually solitary & flowers blue.

Mertensia longiflora Greene

Mertensia (25)

7223 – June 19, 1953. Same place as 7219. Flowers yellow inside, purplish bronze outside.

Viola purpurea Kell.
var. venosa (Wats.) Brainerd ✓

Viola ③

7223 of June 19, 1953
Same place as 7219. Foliage glaucous

Paeonia brownii Dougl. ✓

④ Paeonia

7225 - June 19, 1953
Dry meadowland at upper edge of Little Summit Prairie, 12 miles northeast of Pauline Wheeler Co., Oregon. Twp. 14 S., R. 24 E., S. 19. Elev. 5100'. Plants densely clustered. Flowers blue

Mertensia oblongifolia (Nutt.) G. Don var. amoena (A. Nels.) L. Wms.

(35)

7226 - June 19, 1953. Same place as 7225. Flowers yellow

Viola praemorsa Dougl.
var. major (Hook.) Pollard

V. nuttallii (22)

(22)

7227 - June 19, 1953 In partial shade at dry upper end of little Summit Prairie, Ochoco Mts. 22 miles northeast of Prineville, Wheeler Co., Oregon. T 14 S., R. 24 E. S. 19. Elev. 5100'. Flowers pale, nearly colorless tinted with pink. Carmudes.

Trifolium longipes Nutt.

(16)

7228 - June 19, 1953 - open rocky slopes in ponderosa pine area, summit of the Ochoco Mts. about 26 miles northeast of Prineville, Wheeler Co. Oregon T 14S, R. 24E., S. 8. Elev. 5700'. Perianth yellow; anthers white to pale yellow

Erythronium grandiflorum Pursh

(8)

7229 June 19, 1953. Same as 7228. Corolla pink-purple, with yellow eye. Anthers and filament-tube dark purple.

Dodecatheon conjugens Greene

(4) Dodecatheon jussieui

7230 - June 21, 1953 - Low moist Clayey near Painted Hills, 10 miles northwest of Mitchell, Wheeler Co., Oregon. Twp. 10 S., R. 21 E., S. 31. Elev. 2100'

Bromus brizaeformis F. & M.

Bromus hordeaceus L.

7231 – June 21, 1953 Gravelly soil along intermittent stream between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell, Wheeler Co., Oregon. Twp. 10S., R. 21E., S. 31. Elev. 2100'. Corolla yellow, the palate paler and speckled with red.

Mimulus pulsiferae Gray

(2)

7232 – June 21, 1953 Moist gravelly soil in intermittent stream between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell, Wheeler Co., Oregon, Twp. 10S., R. 21E., S. 31. Elev. 2100.

Polygonum monspeliensis (L.) Desf.

(2)

7233 June 21, 1915

Valley soil along intermittent stream between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell, Wheeler Co, Oregon. Twp. 10S. R. 21E. S. 31 or 32. Elev. 2100'. Plants shrubby at the base. Corolla white, with some purplish lines within, the lobes washed with lavender outside.

Penstemon variabilis Saksd.

Abundant. (19)

7234 June 21, 1915

Moist places along intermittent stream between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell, Wheeler Co, Oregon. Twp. 10S. R. 21E. S. 31. Elev. 2100'.

Juncus nevadensis Wats.

(22)

7235' June 21, 1953 - Loose, gravelly soil along dry wash between Suttenfelt, and Bridge Creek, 13 miles northwest of Mitchell, Wheeler Co, Oregon, Twp. 10S., R 21E., S 31. Elev. 2100'. Corollas dark violet-blue.

Scutellaria angustifolia Pursh

V V

Scutellaria (3)

7235' - Same place as 7235. Corolla magenta, marked with [illegible] and deeper red in throat.

Mimulus cusickii (Greene) Piper

/ V

Mimulus cusickii (4)

7237. June 21, 1953. Open rocky loose slopes between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell Wheeler Co., Oregon. Twp. 10S, R 21 E. S. 32. Elev. 2200'
Corolla dirty light yellowish

Galium multiflorum Kell.

Galium divaricatum (12)

7235 - June 21, 1953. Dry open slopes and washes between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell Wheeler Co. Oregon. Twp. 10S, R. 21 E., S. 32. Elev. 2300'
Corolla white, with yellow center.

Cryptantha henderseni (A. Nels.) Piper

Nutlets solitary, smooth, mottled.

Cryptantha henderseni (35)

7235 June 21, 1923 – Dry gravelly washes between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell, Wheeler Co., Oregon. Twp. 10S., R21E. S 32. Elev. 2200'. Corolla white, turning pink

Dauthera hoodii Dougl. var. pygmaea (Dougl.) T. & G.

7240. June 21, 1923. Dry open slopes between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell, Wheeler Co., Oregon. Twp. 10S., R. 21E., S. 32. Elev. 2200'. Perennial with a taproot and branched caudex. Heads yellow

Hymenopappus filifolius Hook. var. filifolius.

Hymenopappus filifolius (4)

7261 June 21, 1933 - Dry open slopes between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell Wheeler Co., Oregon. Twp. 10S., R. 21E., S. 31 or 32. Elev. 2100'

Orobanche grayana Beck.

7262 - June 21, 1933 - Dry slopes and washes between Sutton Mt. and Bridge Creek, 10 miles northwest of Mitchell, Wheeler Co. Oregon Twp. 10S., R. 21E, S. 31 or 32. Elev. 2200'
Plants spreading by rhizomes. Flowers campulate, yellow

Potentilla campanulata Kerk
det. P.O Kerk

Potentilla [illegible]

7243 - June 21, 1933 - Steep, rocky open slopes 6 miles northwest of Mitchell, overlooking Bridge Creek in Butler Co., Oregon. Twp. 11 S., R. 21 E., S. 15. Elev. 2300' Shrub 2-10 dm. tall. Flowers white.

Nolodiscus dumosus (Nutt.) Heller var. glabrescens (Greene.)

[illegible]

7241 - June 22, 1933 - Dry open places between Mitchell and Bridge Creek, 10 miles northwest of Mitchell, Wheeler Co., Oregon. Twp. 10 S., R. 21 E. S. 32. Elev. 2300'

Bromus rubens L.

[illegible]

72 15 - June 22, 1953.
Open, rocky ridges between
Sulton Mt. and Bridge Creek,
10 miles northwest of Mitchell,
Wheeler Co., Oregon. Twp. 10S,
R. 21E., S. 32. Alt. 2400'
Plants shrubby at the much branched
base. Perianth bright yellow, or
sometimes almost lemon.
Eriogonum sphaerocephalum Dougl.
Eriogonum (5)

72 16 - June 22, 1953. Same
place as 72 15. Perennial from
a stout woody taproot and
branched caudex. Flowers
pink-purple.

Petalostemon ornatus Dougl.

Petalostemon (6)

Parallel to [illegible] (B)
